

CIRCULAR LEADERSHIP MASTERMIND TOPIC:-
YOUR NATURAL LEADERSHIP STYLE

Instructions

The recording for this topic includes a guided process so make sure that you'll be undisturbed for the 15 minutes whilst listening to it. Then set aside a further 20 - 30 minutes to do the follow up exercise afterwards.

The exercise involves answering the questions set out at the end of the recording. For your ease I've also set out the questions below (these will make sense once you have listened to the recording). Write your answers in your CLM journal.

1. **Look at your PowerType profile results - how much are you currently embodying the relevant PowerType for your leadership style?**
2. **What are the benefits of this leadership style?**
3. **What can be the downsides?**
4. **To what extent are you currently harnessing your natural leadership already in your role?**
5. **Are there areas where you are not?**
6. **Where is it the right approach in your role?**
7. **Where is it not the best approach and another would be better?**
8. **How could you collaborate with others to help you with areas that are not in your natural style?**
